

F99/K00: The NCI Predoc to Postdoc Transition Award Funding Opportunity Announcement (FOA) to be issued in July/August

- Dual phase funding: up to 2 years for 3rd/4th-year students to complete graduate study, and up to 4 years for postdoctoral training in cancer research, preferably at a different institution
- Institutional Nomination of Applicants: one nomination per institution each year
- Open to international students
- F31 applicants and current awardees are eligible

The FY20 FOA will be similar to prior funding announcements
 The F99/K00 website is an excellent place to find additional information before the FOA is released:
